SUBJECT INDEX

ACTH
  differential modulation of, stimulated cortisol and androstenedione secretion by insulin, 33
Adrenal(s)
  effect of monensin on, steroidogenesis, 493
Androgen(s)
  inhibitory effect of, on cell death of mouse uterine epithelium, 305
  receptor(s)
    normal and mutant, complexes in human genital skin fibroblasts, 651
  uptake of, in the rat, 549
Anti-androgen(s)
  ICI 176,334
    effect of S115 mouse mammary tumour cells, 385
Anti-estrogen(s)
  ICI 164,384
    antagonism of estrogen- and antiestrogen-induced uterine complement component C3 expression by, 281
Anti-progestin(s)
  ZK 98.299, ZK 98.734, and RU 486
    effect on luteinizing hormone secretion, 431
Aromatase inhibitor(s)
  affinity purification of antibody against the cytochrome *P*450 component, 295
  effect of a new androstenedione derivative: 14α-hydroxy-4-androstene-3,6,17-trione on, of human uterine tumors, 517
  R 76 713
    potency and selectivity of the, in human ovarian, adipose stromal, testicular and adrenal cells, 57
  7-substituted 1,4,6-androstatriene-3,17-diones as enzyme-activated irreversible, 533
ATP
  effect of, on the regulation of the steroid binding activity of the oestradiol receptor, 333
AtT20 pituitary cells
  pharmacological characterization of Type II glucocorticoid binding sites in, culture, 83

Bile acids
  potential precursors of, in plasma, 631
Breast cancer
  cell lines
    ZR-75-1: effect of estrogen on, 399
  combined effects of toremifene and medroxyprogesterone acetate in, 253
  effect of toremifene on, 225, 235, 237, 253
  influence of progestins on serum hormone levels in postmenopausal women with advanced,
    (I) general findings, 99
    (II) differential effect of megestrol acetate and medroxyprogesterone acetate, 105
  ovarian function in premenopausal women affected by, 523
  role of endocrine therapy in primary, 187
  synthesis of 16α-hydroxyesterone: its possible role in the etiology of, 527

Corticosteroid-binding globulin
  regulation of plasma, in adult cynomolgus monkey, 575
Cortisol
  serum, in adrenal hirsutism, 641
Cytochrome *P*-450
  effect of modified acetylenic steroids on, 273
  selective inhibition of, in rat testicular microsomes, 563

Dehydroepiandrosterone sulfate
influence of intestinal bacterial desulfation on, 451
Dihydrotestosterone
effects of, on adrenal gland function in guinea-pigs, 89
1,25-Dihydroxyvitamin D_3
receptors
in human digestive mucosa and carcinoma tissues, 143
7,12-Dimethylbenz(a)anthracene
estrogen-like effects of, on the female rat hypothalamo–pituitary axis, 485
DNA
-binding domains of the rabbit liver glucocorticoid receptor, 15

Estradiol
receptor(s)
nuclear sensitivity of, in normal and neoplastic rat mammary tissues, 7
Estrogen(s)
metabolism of, in primary kidney cell cultures from Syrian hamsters, 325
neonatal exposure to, and gene expression, 415
receptor(s)
differences in the form of the salt-transformed, when bound by estrogen versus antiestrogen, 509
hydroxylated triphenylacrylonitriles and the binding site of, 391
Estrogen sulfatase
uterine activity of, influence of steroid hormones and adenine nucleotides, 301
Estrogen-3-glucuronide
monoclonal antibody against, 439
Estrone sulfate
in advanced breast cancer, 105
Ethynylestradiol
derivatives of, synthesis and biological activity, 133

α-Fetoprotein
estrogen-binding properties of rat serum, and its isoforms, 319
Fluoroimmunoassay
of progesterone in milk, 357
Fluoxymesterone
metabolism of, in man, 659
Flutamide
effect of, on LH, FSH and PRL release, 287

Gene
estrogen alters the protein profiles and, expression in the genital tract of adult male mice, 415
mineralocorticoid receptor, expression in the gastrointestinal tract, 263
Granulosa-lutein cells
altered steroidogenic pattern of, 457

Hydatidiform mole
kinetic analysis of 3β-hydroxysteroid dehydrogenase activity in microsomes from complete, 149
2-Hydroxyestriol
glucuronidation of, 501
16α-Hydroxyesterone
its possible role in the etiology of breast cancer, 527
3β-Hydroxysteroid dehydrogenase
activity in microsomes from complete hydatidiform mole, 149
17β-Hydroxysteroid dehydrogenase
immunological measurement of, in human, 673
17β-Hydroxysteroid oxidoreductase
in rat liver, 569

Inhibin
effect of, on Sertoli and Leydig cells, 445
Insulin
differential modulation of ACTH-stimulated cortisol and androstenedione secretion by, 33
Insulin-like growth factor I (IGF-I)
induced cortisol production by, in bovine adrenocortical cells, 583
Interferons
additive and synergistic antitumor effects with, 259

Ketoconazole
inhibition by, of human testicular steroid oxidoreductase, 667

Lanosterol
a novel, isomer produced in response to azole antifungals, 505
Lymphoma cells
evidence that RU 486 stabilizes the nonactivated form of the glucocorticoid receptor in, of mouse, 25

Methandrostenolone
metabolism of, in humans, 407
Monoclonal antibodies
to estrone-3-glucuronide, 439

19-Norandrostenedione
hydroxylation of, by adrenal cortex mitochondrial *P*-450-11β, 361

19-Oxygenated 16α-hydroxyandrostenedione
aromatization of, with human placental microsomes, 369

Placenta
effect of 2α-bromoacetoxyprogesterone on 3β-hydroxy-5-ene-steroid dehydrogenase and steroid 5$\rightarrow$4-ene-isomerase in human, 117
Polycystic ovaries
serum concentration of 5-androstene-3β-,17β-diol sulphate and 5α-androstane-3α,17β-diol sulphate in hirsute females with, 67
Progesterone
effects of calcium on the production of, in bovine luteal cells, 687
formation of, from cholesterol in fermentation cultures of *Mycobacterium aurum*, 181

Rabbit
Estrophilic 3α,3β,17β,20α-hydroxysteroid dehydrogenase from rabbit liver,
(I) isolation and purification, 609
(II) mechanisms of enzyme–steroid interaction, 617
Radioimmunoassay
of 5α-androstane-3α,17β-diol 17-glucuronide in plasma, 345
Receptor(s)
androgen
synthesis and testing of E-17α-(2-iodovinyl)-5α-dihydrotestosterone and Z-17α-(2-iodovinyl)-5α-dihydrotestosterone as γ-emitting ligands for the, 125
1,25-dihydroxyvitamin D_3
in human digestive mucosa and carcinoma tissues, 143
estrogen
and hydroxylated triphenylacrylonitriles, 391
differences in the form of the salt-transformed, when bound by estrogen versus antiestrogen, 509
in normal and neoplastic rat mammary tissues, 7
preferential nuclear binding of, in the formalin-fixed rat uterus, 703
spatial and molecular aspects of, in human uteri and uterine carcinomas, 43

glucocorticoid(s)
alterations in the binding characteristics of, from obese Zucker rats, 681
DNA-binding domains of, in rabbit liver, 15
progestin binds to the, in rat adipose precursor cells, 465
RU 486 stabilizes the nonactivated form of, in mouse lymphoma cells, 25
mineralocorticoid
gene expression in the gastrointestinal tract, 263
progesterone
spatial and molecular aspects of, in human uteri and uterine carcinomas, 43
RU 486
effects of progesterone, epipregnanolone and, on potassium uptake in cultured cortical neurons, 269
luteolytic effect of, in rats, 479
stabilizes the nonactivated form of the glucocorticoid receptor in mouse lymphoma cells, 25

Sex hormone binding globulin
circadian variations of serum, in normal adult men and women, 111
direct effect of plasma, on the metabolic clearance rate of 17β-estradiol in the primate, 311
genetic polymorphism of the human, 541
in advanced breast cancer, 105
2-iodoestradiol binds with high affinity to human, 75
Stanozolol
metabolism of, 153
Steroid(s)
biosynthesis by zona glomerulosa-fasciculata cells in primary culture of guinea-pig adrenals, 589
Steroid sulphatase
activity in the human ovarian corpus luteum, stroma, and follicle, 175
Sulphotransferases
properties of estrogen and hydroxysteroid, in human mammary cancer, 695

Testosterone
conversion of, to 5α-dihydrotestosterone in nude mice treated with high doses of cyclosporine A, 597 estradiol-induced inhibition of, biosynthesis in rat Leydig cells: role of L-glutamate and pyruvate, 473
ethanol-induced inhibition of, biosynthesis in rat Leydig cells: central role of mitochondrial NADH redox state, 603
in the seminiferous tubules of rat, 377
Toremifene
additive and synergistic antitumor effects with, and interferons, 259
antiestrogenic and antitumor properties of, in the rat, 203
antitumor effects of, combined with medroxyprogesterone acetate, 253
binding of, in rat uterus, 197
effect(s)
in breast cancer, 225, 227, 229
in healthy postmenopausal volunteers, 217
on estrogen primed vaginal mucosa in postmenopausal women, 221
on NK-cells in NZB/NZW mice, 207
hormonal effects of, in breast cancer, 243
in patients with advanced breast cancer, 237
metabolism of, in the rat, 211
pharmacokinetics of, 249
pharmacological properties of, 191
response to, in tamoxifen failed patients with breast cancer, 239
use of, in carcinoma corporis uteri, 241
use of, in the treatment of metastatic mammary cancer, 233, 235

Uteroglobulin
expression of the, gene following administration of norethisterone and its A-ring reduced metabolites, 1

Uterus
binding of toremifene and its metabolites in, of rat, 197
spatial and molecular aspects of estrogen and progesterone receptor expression in normal, and carcinomas of, in human, 43

We wish to thank the following persons for their kind cooperation in reviewing papers for *The Journal of Steroid Biochemistry*: Drs P. BANKS, Baltimore, U.S.A; P. J. BUTTERWORTH, London, England; M. GARCIA, Montpellier, France; F. K. HABIB, Edinburgh, Scotland; M. E. HARPER, Cardiff, Wales; W. HEYNS, Leuven, Belgium; S. G. HILLIER, London, England: J. W. HONOUR, London, England; S. INKSTER, Baltimore, U.S.A.; C. J. NEWTON, London, England; R. E. OAKEY, Leeds, England; T. OJASOO, Paris, France; E. ORTI, Hanover, U.S.A.; B.R. RAO, Amsterdam, The Netherlands; M. J. REED, London, England; A. REIGEL, Washington, U.S.A.; S. SADOWSKI, Chapel Hill, U.S.A.; J. SAEZ, Lyon, France; P. M. STEWART, Birmingham, England; G. H. TAIT, London, England; B.-I. TAMAOKI, Nagasaki, Japan; J. TULLY, Chapel Hill, U.S.A.
